

FALL 2023

BIO/CHM 240

Register for *either* Bio 240 (CRN 31352) or Chem 240 (CRN 31236) depending on your academic interest!

Investigations into the Ecology of Microbial Biofilms

Interested in a career in the sciences? Don't miss this opportunity to enroll in a course that will give you hands-on experience in a laboratory setting investigating the ecology of microbial biofilms. This class will give you the chance to participate in the scientific method as we work to identify potential inhibitors and/or promoters of biofilm formation by the pathogen *Pseudomonas*

Opportunity to do independent research

Interdisciplinary Team-taught course that gives you access to 2-3 instructors

Small Class Size

Open to Honors Students

Tuesday 12:30-1:45

Thursday 11:30-1:45

OAKTON COMMUNITY COLLEGE

1600 East Golf Road
Des Plaines, IL 60016
